

Introduction

14 week Cricket Scheme Of Work for Key Stage 2/3

The following scheme forms a structured programme of cricket development for youngsters in the 7 –14 age group.

The scheme could be easily be split into two or three sections and taught at different times of the year.

The scheme should be added to, changed and adapted to ensure that the development of skills is appropriate to the needs of the children being taught. The age and ability of the children will influence much of the planning, but thorough evaluation of sessions should determine how the scheme develops over the following sessions. Factors such as the numbers in the group, space and time available , and even the unpredictable weather will influence the way in which the programme develops.
